## HUNS JUSTIFY THE SINKING OF THE LUSITANIA

BY EDWARD HULLINGER.

Harwich, England, Nov. 24 .-(Night)-The Germans will justify |+ the sinking of the Lusitania, because + she had munitions aboard; she was given warning not to sail," declared Karl Ooser, machinist on one of the 28 German submarines which sur- + rendered here today.

Other members of the crew said they were ashamed of Germany's ruthlessness and many hoped to win back America's friendship.

The U-hoat men were burdened with kit bags, phonographs and other paraphernalia when they landed from their craft. All were attired in overalls. They were laughing and joking when they scrambled from the ing when they scrambled from the suppery decks into the launches waiting to take them ashore.

The correspondent interviewed a score of them. Most of them rejoiced at the overthrow of Junkerism. One young officer, however, defended ruthlessness and scoffed at America's part in the war. He refused to give his name. He said he intends to visit America soon.

Amsterdam, Nov. 25 .- "How Wilheim Held Out," is the title of an article in the Frankfort Volks Stimme, by William Carle, a Socialist, who discovered the hoards of provisions which the former emperor had in his Berlin palace.

"The quantity," the writer says, "exceeded all expectations. In large erally everything, one can imagine in foodstuffs. It is inconceivable that after four years of war such huge quantities could be hoarded.

"There was meat and game in cold storage, salted provisions in large storage, salted provisions in large cases, while meal in sacks piled to the roof, thousands of eggs, gigantic boxes filled with tea, coffee, chocolate, lard, jelly and jams, hundreds of sugar loaves and endless stacks of peas, beans, dried fruits and biscuits Their value amounts to several hundred thousand marks. As he descended from the railway car with a swaggering gait and wearing a fur coat howls of execration arising from the thousands gathered outside the station seemed to perturb him.

The Government yacht, which was to have taken the former Crown Prince to the Island of Wieringen, which will be his future abode in Holland, grounded in the fog. A tugboat was substituted.

Acting indifferently, the former Crown Prince stepped on the gangway and lit a cigarette. The tug cast loose immediately and disappeared in the fog amidst the angry shouts of the populace.

Yields Quickly to Antiseptic Treatment.

Many are finding relief from Inluenza, Colds, Sore Throat and perhaps preventing pneumonia, it is said, by the use of Miller's Antiseptic Oil (known as Snake Oil.) It's great penetrating, pain-relieving qualities insure almost instant relief when applied freely on the chest or throat, well greased when first symptoms arise. The Oil penetrates through to the affected parts and tends to open up the air passages, making breathing more easy, relieving the pains. And for the cough a few drops on a little sugar usually brings prompt relief. The world has looked on in here is a modern Hercules who could empty the peoples' pockets into that of the national treasury, and apparently have them glad to do it.

And, as if this was not a big enough job for the ability of any one man, when the nation faced the condition of a congestion of its transportation facilities, and chaos took the place of good order in our railroad affairs, the President added to Mr. McAdoo's duties the office of Director General of the Railroads. How he soon brought system and regular order of business conduct out of complicated mixups, is common knowledge, to the great satisfaction and advan- ceiver when she regretted her action, tage of the public. A great work, and It accomplished without any real hardship to the railroad owners.

The excuse Mr. McAdoo gives for resigning, is that he cannot afford to hold the office, and hence expects to go into business to recoup his fortune. This scarcely seems a good justification for a man to desert a great public trust, with a salary of \$10,000 per year, in a time of grave national

At least the more generally accepted view of the case is that Mr. McAdoo has buzzing around under his hat a very large sized "Presidential bee," and taking time by the forelock, is ination for 1920. Apropos of this is the story current in New York of a friend accosting Mr. and Mrs. McAdoo and saying: "How are you, Mr. Secretary -- I hope some of these days it may be 'how are you Mr. President?' and that while he was looking embarassed his wife responded: 'Yes, papa says we can have it."

Possibly Papa Wilson has said so, and that is the real nub to this very unexpected step on the part of Mr. McAdoo-that is, that the President has thought better of hisself being a candidate for a third term, and is going to be satisfied to have his son-inlaw "step into his old shoes."

## CONSERVATIVE INVESTMENTS

FREE OF COUNTY TAXES

Included in this group are the stocks of various railroads representing important units in the Pennsylania system, and which are leased to and operated by the Pennylvania Railroad. The leases run from 99 to 999 years and are on a rental basis equalling an amount sufficient to guarantee the payment of the interest on the bonds, the organization expenses, and the dividends upon the outstanding stocks of these leased roads: thus the payment of these dividends is guaranteed by the Pennsylvania Railroad.

In the past, these stocks as a rule, have been difficult to obtain in small blocks and the prices were so high as not to make them attractive to the average investor. For several years past, we have specialized in these stocks with the result that we can generally supply them in blocks large or small enough to suit the individual requirements of our customers.

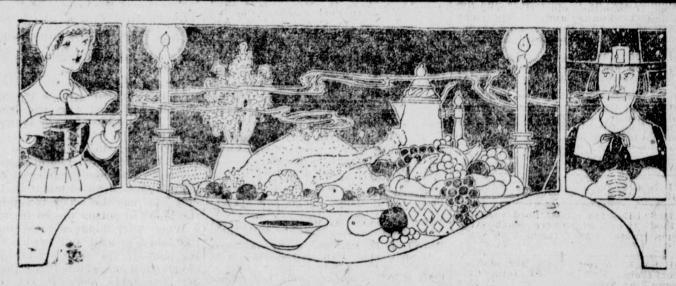

During the past eighteen months prices have been low enough to yield an attractive return, though quite recently they have been advancing, in harmony with the prices of other similar securities. This list includes in part:

Cleveland & Pittsburgh Cleveland & Pittsburgh Columbus & Xenia ......8.40% Pittsburgh Youngstown & Ashtabula Preferred

In addition to the stocks listed above, we buy and sell Liberty bonds, municipal bonds, short-time notes, public utility stocks—includ-ing Dayton Power & Light Prefeired the Preferred and Common stocks of The City Railway Company—also a restricted list of industrial Preferred stocks. Thus through our office may be procured a well-diversified list of non-taxable investments returning from 4% to 8%.

There's another reason why the Still Better Willard Battery with Threaded Rubber Insulation is worth so much more than its slightly higher cost. It's the one and only battery with the "Bone Dry" principle that is your absolute assurance of getting a battery as new as the day it left the factory.

## Dayton Conservatory of Music TALK NUMBER THREE

There are three general divisions of the Courses of Study at the Conservatory-The "Regular Course," The "Artist Course" and The "Teachers' Course." Each of these courses leads to a final diploma. To complete the regular course, the pupil must cover certain ground, including as course in Harmony. The requirements of the "Artist Course" are that the pupil shall be able to give a complete and artistic public recital in addition to completing the required subjects.

The "Teachers' Course" in the Piano Department is based on the "Progressive Series of Piano Lessons," as published by the Art Publication Society of St. Louis, Mo. This remarkable "text" work, while comparatively new, has already been adopted by thousands of the leading private teachers, Conservatories and Universities of the country, including Cornell University and the Cincinnati Conservatory.

### WHY DID MR. M'ADOO RESIGN?

Because Mr. McAdoo has held such of justice and punished. a large place in the administration of the affairs of the nation, and has filled that part with such remarkable

And that without a ripple of distrust in financial of the national treasury, and apparently have them glad to do it.

And, as if this was not a big enough job for the ability of any one man, when the nation faced the condition of a congestion of its transportation facilities, and chaos took the place of good order in our railroad affairs, the President added to Mr. McAdoo's duties the office of Director General of the Railroads. How he soon brought system and regular order of business conduct out of complicated mixups, is common knowledge, accomplished without any real hardship to the railroad owners.

The excuse Mr. McAdoo gives for resigning, is that he cannot afford to hold the office, and hence expects to go into business to recoup his fortune. This scarcely seems a good justification for a man to desert a great public trust, with a salary of \$10,000 per year, in a time of grave national

At least the more generally accepted view of the case is that Mr. McAdoo has buzzing around under his hat a very large sized "Presidential bee," and taking time by the forelock, is grooming for the Democratic nomination for 1920. Apropos of this is the story current in New York of a friend accosting Mr. and Mrs. McAdoo and saying: "How are you, Mr. Secretary -- I hope some of these days it may be 'how are you Mr. President?' and that while he was looking embarassed his wife responded: 'Yes, papa says we can have it."

Possibly Papa Wilson has said so, and that is the real nub to this very unexpected step on the part of Mr. McAdoo-that is, that the President has thought better of hisself being a candidate for a third term, and is going to be satisfied to have his son-inlaw "stap into his old shoes."

But, my dear "Billy Gibbs," as his most familiar friends often cal "there's many a slip between the cup and the lip," and you might as well take cognizance of the rumb- had confessed to taking Mollieling of the ground which says the next President is going to be a Republican-Probably Roosevelt or Taft, or Hughes. Included in this group are the stocks of various railroads representng important units in the Pennsylania system, and which are leased to and operated by the Pennsylania Railroad. The leases run from 99 to 999 years and are on a rental basis equalling an amount sufficient to guarantee the payment of the interest on the bonds, the organization expenses, and the dividends upon the outstanding stocks of these leased roads: thus the payment of these dividends is guaranteed by the Pennsylvania Railroad.

In the past, these stocks as a rule, have been difficult to obtain in small blocks and the prices were so high as not to make them attractive to the average investor. For several years past, we have specialized in these stocks with the result that we can generally supply them in blocks large or small enough to suit the individual requirements of our customers.

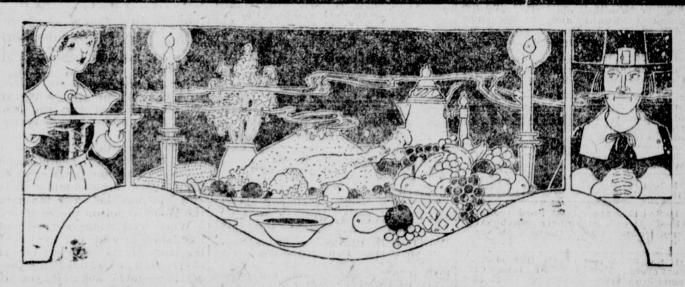

During the past eighteen months prices have been low enough to yield an attractive return, though quite recently they have been advancing, in harmony with the prices of other similar securities. This list includes in part: list includes in part:

# MUSTEROLE—QUICK

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster-does it better and does not blis-

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often pre-

vents pneumonia). 30c and 60c jars; hospital size \$2.50.

Hamlin's Wizard Oil a Reliable, **Antiseptic Preventive** 

During influenza epidemics spray the nose and throat several times a day with one part Wizard Oil and two parts water, using an atomizer. If you haven't an atomizer, gargle the throat and snuff the mixture up the nose. This treatment sets up an antiseptic wall of defense against "Flu" germs.

Chest colds and sore throat lead to grip. Stop them at once with Wizard Oil before they can develop into dangerous influenza. Get it from druggists for 30c. If not satisfied, return the bottle and get your money back.

Ever constipated or have sick head-ache: Just try Wizard Liver Whips, pleasant little pink pills, 30c at drugoooooooooooooooooooooooooo gists. Guaranteed.
